

Bring Cell Therapy to Your Patient

HemaTrate™ BLOOD FILTRATION SYSTEM

3 Steps to Autologous Cell Therapy Preparation

The HemaTrate Blood Filtration System is a tool for preparing autologous platelet concentrate (fPC) or total nucleated cell (TNC) concentrate. Load, filter, and recover in minutes. Whether in the clinical laboratory or intraoperatively at the point-of-care, this tool for cell therapy preparation from Cook Regentec provides:

- Point-of-care cell therapy preparation in minutes
- Two options for cell therapy concentrates in a single-use device
- Gravity filtration for separating specific cell populations
- Three steps for use: load blood, filter blood, recover the preparation
- Freedom from fixed capital equipment

Take the next step and try HemaTrate. To learn how, ask your Cook Regentec representative.
